Re: Commission of Healthcare and Hospital Funding

Dear Governor Scott,

We received your letter dated May 13, 2015, requesting information from the hospital industry, insurance companies and healthcare providers who receive taxpayer funds.

American Family Life Assurance Company of Columbus (Aflac) is a supplemental insurance company. Our policies pay a specific limited benefit amount as listed in the policy schedule, directly to the policyholder, unless otherwise assigned. Our policies are employee paid and we do not collect taxpayer funds. For that reason, we have provided a response of Not Applicable or "NA" to this survey. .

If you have any questions or need additional information, I can be reached at (706) 660-7728, or by email at jcurry@aflac.com..

Sincerely,

Jacquelin Curry
