To: Florida Commission on Hospital and Healthcare Financing
From:  Arthur Wallace III, Vice President of Finance/Treasurer
Re: Requested Hospital Profile Data

It is with pleasure that we respond to the Commission's May 13, 2015 letter requesting hospital profile data. We at Broward Health agree, "Florida families deserve access to the Healthcare Services they need", and it has always been our mission and purpose to assure that these resources are available to both the underinsured and the uninsured within the community that we serve.

I am including a file of data to the *Commission on Healthcare and Hospital Financing* for Broward Health Medical Center, Broward Health North, Broward Health Imperial Point and Broward Health Coral Springs. This report was compiled in a manner consistent with recommendations from both the Safety Net Hospital Alliance of Florida (SNHA) and the Florida Hospital Association (FHA).

The majority of this information is currently available at AHCA as part of the uniform reporting that is filed annually by all of Florida's hospitals. We have populated many of the line items with the legend of where this information is available within the AHCA uniform reporting data bases. Some other line items within the document require further clarification and your guidance to ensure consistent and meaningful reporting when we are compared to all hospital providers.

As I mentioned, we have been working with SNHA of Florida and FHA to address other issues within the data request. Correspondence from these organizations was sent earlier today to the office of Governor Rick Scott.

Our System's leadership team looks forward to working with the Commission towards a successful outcome on the re-design of Florida's Low Income Pool program.
