**Hospital Financial Data Remains In Spotlight for Second Commission Meeting**

**Tallahassee, FL** – Today, the Commission on Healthcare and Hospital Funding is meeting for the second time and its focus remains on hospital financial data for facilities around the state. Earlier this month, Governor Scott asked hospitals to assist the Commission in gathering information on taxpayer funding for healthcare entities in the state in order to assess the return on investment from tax dollars as well as determining the role of supplemental tax funding for those facilities.

The nine-member Commission was tasked by the Governor to review hospital finances because Florida's families deserve access to quality healthcare services at a price they can afford from providers with proven track records.

The following entities responded in detail to the Governor's request for data:
